

To whom it may concern: I am not in favor of LPFM having priority over FM translator service. I am a local resident in Roselle, IL and I enjoy K-Love radio station which is broadcasted locally from Elgin, IL. I have many friends and family who would be devastated if this happens, who listen to this no- commercial radio station and support it financially. It is such a blessing to us locally having a station to listen to without all the commercial that is filled with music safe for the whole family. Their service is in the public interest because it offers families a decent option to listen to with small children. We don't have to worry about what the kids will hear from the music or the people speaking. Please continue to serve the public with this FM translator service. Sincerely, Tanya Lee
